TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULTS	Importance	ACTUAL RESULT	STATUS
Register_001	Verify register functionality after download for the first time	First time entering the app when clicking "next"	App should not have an account already stored	1. Download the app in playstore 2. After finished downloading, Click on the app 3. Click on Allow notification 4. Click "next" 5. Click "next" 6. Click "next" 7. Click on Allow to manage phone calls	- - - - - - -	It will be redirect to បង្កើតគណនីថ្មី screen	High		Pass
Register_002		First time entering the app when clicking "skip"		1. Download the app in playstore 2. After finished downloading, Click on the app 3. Click on Allow notification 4. Click "skip" 5. Click on Allow to manage phone calls	- - - - -	Should be able to see home page of the app	Low		Pass
Register_003		First time entering the app when clicking "next" and "back"		1. Download the app in playstore 2. After finished downloading, Click on the app 3. Click on Allow notification 4. Click "next" 5. Click "back" 6. Click "next" 7. Click "next" 8. Click on Allow to manage phone calls	- - - - - - - -	Should be able to see home page of the app	Low		Pass
Register_004		First time entering the app when clicking "next" and "back" and "skip"		1. Download the app in playstore 2. After finished downloading, Click on the app 3. Click on Allow notification 4. Click "next" 5. Click "back" 6. Click "skip" 7. Click on Allow to manage phone calls	- - - - - - -	Should be able to see home page of the app	Low		Pass
Register_005		First time entering the app when clicking "next" and "skip"		1. Download the app in playstore 2. After finished downloading, Click on the app 3. Click on Allow notification 4. Click "next" 5. Click "skip" 6. Click on Allow to manage phone calls	- - - - - -	Should be able to see home page of the app	Low		Pass
Register_006	Verify register functionality using phone number	Successfully create new account with valid information	App should not have an account already stored	1. Click on app 2. Enter valid phone number 3. Enter valid password 4. Enter valid confirm password 5. Click check on terms and condition 6. Click create account 7. Enter Valid OTP	- << valid phone number >> << valid password >> << valid password >> - - << valid OTP >>	It should be able to create new account successfully and will redirect user to ផ្ទៀងផ្ទាត់អត្តសញ្ញាណប័ណ្ណសញ្ជាតិខ្មែរ screen	High		Pass
Register_008		Create an account with invalid phone number		1. Click on app 2. Enter invalid Phone number 3. Enter valid password 4. Enter valid Confirm password 5. Click check on terms and condition 6. Click create account 7. Enter Valid OTP	- << invalid phone number >> << valid password >> << valid password >> - -	Creating a new account should not be possible because the OTP was not sent.	Medium		Pass
Register_009		Verify create password field when it's not following condition		1. Click on app 2. Enter Phone number 3. Enter invalid password format 4. Tab-out of password field 5. Observe the validation message	- << invalid phone number >> << invalid password >> - -	When user tab-out the validation message will be appear below "Create password field"	Low		Pass
Register_010		Missed matched create new password and confirm password		1. Click on app 2. Enter Phone number 3. Enter valid password 4. Enter invalid confirm password 5. Observe the validation message		The validation message will be display below confirm password field	Medium		Pass
Register_011		Verify terms and condition function		1. Click on app 2. Enter Phone number 3. Enter valid password 4. Enter valid confirm password 5. Click on Create new account button		It should not be able redirect OTP screen and the validation message will be appear	Medium		Pass

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULTS	Importance	ACTUAL RESULT	STATUS
Register_012		Create new account with existing phone number		1. Click on app 2. Enter existing phone number 3. Enter valid password 4. Enter valid confirm password 5. Check on Terms and Condition 6. Click on Create new account button		The error message will be displayed indicating that "Phone number is already exist"	High		Pass
Register_023	Verify register functionality with different OTP combination	Enter Correct OTP	App should not have an account already stored	1. Click on app 2. Enter email 3. Enter password 4. Enter Confirm password 5. Click check on terms and condition 6. Click create account 7. Enter OTP	- << valid email >> << valid password >> << valid password >> - - << valid OTP >>	Should be able to see home page of the app	High		Pass
Register_024		Enter Incorrect OTP		1. Click on app 2. Enter email 3. Enter password 4. Enter Confirm password 5. Click check on terms and condition 6. Click create account 7. Enter OTP	- << valid email >> << valid password >> << valid password >> - - << invalid OTP >>	Should not be able to register and display an error "Incorrect OTP"	Low		Pass
Register_025		Enter Expired OTP		1. Click on app 2. Enter email 3. Enter password 4. Enter Confirm password 5. Click check on terms and condition 6. Click create account 7. Wait for time expires 8. Enter OTP	- << valid email >> << valid password >> << valid password >> - - - << expired OTP >>	Should not be able to register and display an error "Incorrect OTP"	Low		Pass
Register_026		Enter Incorrect OTP for 3 times		1. Click on app 2. Enter email 3. Enter password 4. Enter Confirm password 5. Click check on terms and condition 6. Click create account 7. (3 times)	- << valid email >> << valid password >> << valid password >> - - << incorrect OTP >>	Should not be able to register and display an error "Incorrect OTP"	Low		Pass
Register_027		Resend OTP for 2 times		1. Click on app 2. Enter email 3. Enter password 4. Enter Confirm password 5. Click check on terms and condition 6. Click create account 7. Wait for time expires 8. Click resent OTP 9. Enter OTP	- << valid email >> << valid password >> << valid password >> - - - - << correct OTP >>	Should be able to see home page of the app	Low		Pass

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULTS	Severity	ACTUAL RESULT	STATUS
PI001	ព័ត៌មានអំពីអត្តសញ្ញាណ sreen	Take ID card properly and verify the auto-filled function		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information		When user take the ID card properly the auto-filled user's information should be display correctly by following the actual id card	High	The detection function is not working accurately Bug URL: Ticket 6	Fail
PI002		Attempt to update ID information		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information 5. Attempt to edit user information		It should be allowed user to update personal information	High		Pass
PI003		Click on "Next" when it's missing required information		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information 5. Attempt to leave required as empty 6. Click on បន្ទាប់ button	Need to test every required field	It should not be able to redirect to next screen and the validation message should be display on missing field	High		Pass
PI004		Verify data type of លេខអត្តសញ្ញាណប័ណ្ណ field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information 5. Attempt to input number on លេខអត្តសញ្ញាណប័ណ្ណ field less than 9 and more than 10 numbers		- When user input number less than 9 digits the validation message will be appear to indicate the user that this field cannot be less than 9 digits - It should prevent user to input number more than 10 digits	Medium		Pass
PI005		Verify data type of គោត្តនាម (ខ្មែរ) and នាម (ខ្មែរ) field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information 5. Attempt to input special characters, and other language except khmer language		It should be accept only Khmer language, and other type of character will be rejected	Medium		Pass
PI006		Verify data type of គោត្តនាម (អក្សរឡាតាំង) and នាម (អក្សរឡាតាំង) field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Observe the display information 5. Attempt to input special characters, and other language except khmer language		It should be accept only English language, and other type of character will be rejected	Medium	It allowed user to input any type of character Bug URL: Ticket 8	Fail
		Verify ជ្រើសរើស button in កម្មករ-និយោជិក field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field		It should be clickable, and after being clicked, it should redirect the user to the next screen where they can fill in the information about កម្មករ-និយោជិក	High		Pass
		Click on drop-down in **ប្រភេទអាជីវកម្ម មុខរបរ ឬការងារ** field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Attempt to click on drop-down in ប្រភេទអាជីវកម្ម មុខរបរ ឬការងារ field		When user click it will list down all the available type of jobs [កម្មករ-និយោជិក, សហគ្រាសធុនមីក្រូ, បុគ្គលសុវ័យនិយោជន៍]	Medium		Pass

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULTS	Severity	ACTUAL RESULT	STATUS
	បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ screen of **កម្មករ-និយោជិក** option	Click on drop-down in **វិស័យ** field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Attempt to click on drop-down in វិស័យ field		When the user clicks on the វិស័យ field, it will display a list of all available sectors for the user to choose from. After selecting an option, the chosen sector will be reflected in the វិស័យ field correctly	Medium		Pass
		Click on drop-down in **បុរេភទេតួនាទីការងារ** field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Click on drop-down in បុរេភទេតួនាទីការងារ field		It should be clickable, and after click it will redirect user to បុរេភទេតួនាទី screen where allow user to choose options	Medium		Pass
		Verify **រួចរាល់** function in បុរេភទេតួនាទីការងារ screen		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Click on drop-down in បុរេភទេតួនាទីការងារ field 7. Choose any option 8. Click on រួចរាល់ function		After user click on រួចរាល់ function it will redirect user to បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ screen, and the chosen will be displayed in បុរេភទេតួនាទីការងារ field correctly	Medium		Pass
		Verify Plus icon functional when user slected less than 5 option		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Click on drop-down in បុរេភទេតួនាទីការងារ field 7. Choose option less than 5 option 8. Click on plus icon		When user click it will popup a "បន្ថែមបុរេភទេតួនាទីការងារ" dialog and allow user to add a new option. After user click on រក្សាទុក that input value will display in ហានជ្រើសរើស section	Medium		Pass
		Verify Plus icon functional when user slected more than 5 option		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Click on drop-down in បុរេភទេតួនាទីការងារ field 7. Choose 5 options 8. Click on plus icon		The plus icon will be disabled to prevent user from clicking	Medium		Pass

TEST CASE ID	TEST SCENARIO	TEST CASE	PRE-CONDITION	TEST STEPS	TEST DATA	EXPECTED RESULTS	Severity	ACTUAL RESULT	STATUS
		Successfully create បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ of កម្មករ-និយោជិក option		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Attempt to input valid information 7. Attempt to click on បន្ទាប់ button		It will redirect user to ព័ត៌មានអប់រំ និងព័ត៌មានផ្សេងៗ screen	High		Pass
	បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ screen of សហគ្រាសធុនមីក្រូ option	Successfully create បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ of សហគ្រាសធុនមីក្រូ option		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in សហគ្រាសធុនមីក្រូ field 6. Attempt to input valid information 7. Attempt to click on បន្ទាប់ button		When user fill valid information with required field It will redirect user to ព័ត៌មានអប់រំ និងព័ត៌មានផ្សេងៗ screen	High		Pass
		Validate វិស័យ field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in សហគ្រាសធុនមីក្រូ field 6. Click on វិស័យ field and choose an option 7. Observe the display data in វិស័យ field		When user click on វិស័យ field it will listed down all the available option for allowing user to choose, and the chosen will be display in វិស័យ field correctly and properly	Medium		Pass
		Validate បុរេភទេអាជីវកម្ម field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in សហគ្រាសធុនមីក្រូ field 6. Click on បុរេភទេអាជីវកម្ម field and choose an option 7. Observe the display data in បុរេភទេអាជីវកម្ម field		When user click on បុរេភទេអាជីវកម្ម field it will redirect user to បុរេភទេអាជីវកម្ម screen for allowing user to choose, and the chosen option will be reflect in បុរេភទេអាជីវកម្ម field	Medium		Pass
		Attempt to submit បុរេភទេអាជីវកម្ម មុខរបរ ឬការងារ without required field		1. Open application 2. On Register process 3. Attempt to take the ID card 4. Fill valid personal information and click on បន្ទាប់ button 5. Click on ជ្រើសរើស button in កម្មករ-និយោជិក field 6. Attempt to click on បន្ទាប់ button by leave required field as empty		The validation message should be validate on the missing field	Medium		Pass
